Being a dedicated, enthusiastic, and passionate learner in every area of Computer Science with a growth mindset enables me to pick up new concepts rapidly and effectively and adapt them as per the needs. Possessing a solid foundation in computer science, I consistently work to develop its foundations, which serve as the framework. I am confident and excited to work with experts in the field and contribute to real life projects as a useful complement to my academic studies.

Education

Bachelor of Science, Computer Science   Expected graduation: Dec. 2027
Toronto Metropolitan University (formerly Ryerson)- Toronto, ON
- Accomplished excellent results in all core academic courses, achieving a GPA of 3.8 in first Semester.

Skills Summary

Hard Skills

Core concepts	Object Oriented Programing, Responsive Web Development, Graphical User Interface, Git, GitHub, Open Source

Soft Skills

Leadership Skills, Adaptive and quick learner, Critical Thinker, Detail Oriented, Great Communication Skills, Innovative Thinker with problem solving mindset, Strong time management skills, Collaboration

Academic Projects

Portfolio   May 2023 - May 2023
- Tech Stack: HTML5, CSS, Bootstrap, GitHub
- The structure of the webpage was developed using HTML, while CSS was used for styling and visual appeal.
- Features: The portfolio featured various components, including a home page with a concise biography, information about my skills, hobbies, extracurricular activities, and certificates earned. Additionally, I outlined my future goals to provide a glimpse into my aspirations. My portfolio featured a user-friendly "Contact Me" page for direct emailing, and my attached resume provided detailed information about myself. The Projects Section included GitHub links, offering readers insights into my technical expertise.

Foot Locker Clone   Apr. 2023 - Apr. 2023
- Tech Stack: HTML5, CSS, Bootstrap, phpMyAdmin
- HTML ensured a well-organized and user-friendly layout, while CSS enhanced the visual appeal with custom styles.
- Features: The objective was to replicate specific sections of the careers.footlocker.com website while adding extra functionality and maintaining its overall look and feel. The project included a login page for accessing stored data and a registration page for users to input and store information through phpMyAdmin. A logout button ensured a seamless user experience.

Bagel House Calculator   Oct. 2022 - Oct. 2022
- Tech Stack: phpMyAdmin, Python, GUI
- The Bagel and Coffee Price Calculator provided a convenient solution for customers to customize their bagel and coffee orders. With a user-friendly graphical user interface (GUI), consumers could easily select their preferred bagel, toppings, and coffee options. The calculator dynamically displayed the prices associated with each choice, allowing customers to make informed decisions.
- To ensure seamless data management, the project incorporated phpMyAdmin, a popular tool for managing databases. Using phpMyAdmin, client information such as order details, preferences, and pricing data were efficiently stored and organized.

Work Experience_____

Winners, Toronto, Canada   May 2023 - Present
Sales Associate and Cashier
- Serving as a cashier to assist with financial transactions.
- Demonstrating excellent work ethic by delivering exceptional customer service.
- Assisting with the upkeep and management of store inventory.
